BOOST YOUR PERFORMANCE

XT 38.1

CODE 55L105

The Booster 38.1 compound bow is a bow suitable for target shooting but also for 3D shooting for all those seeking maximum precision. Thanks to the very long machined riser, the double parallel limbs and the Dual Syncro Cam, this bow offers a wide range of draw lengths and excellent performance in terms of stability, accuracy and lack of vibration during release. The Dual Syncro Cams provide a smooth draw with excellent wall. Two different Cam sizes cover, with module adjustment and without the aid of a bow press, a draw length range of 24.5" to 27.5" (Cam 2) and 26.5" to 30.5" (Cam 1). The integrated grip is comfortable and allows excellent stability and control of the bow when aiming. Also remarkable is the cable slide with micro-metric lateral and angular adjustments and the string stop. The bow's poundage can be decreased by up to 15# from the maximum rated value.

Available colors: Black BK, Blue BL, Green GR, Orange OR, Purple PR, Red RD, Smoke Grey SM and Turquoise TU.

RH LH

Axle/Axle	38"
Weight	2.160 g
Velocity	330 fps
Let Off	75%

ROLLER CABLE SLIDE
CODE 53V171

To improve the performance, we recommend the use of the Roller cable slide available in 4 different colors.

Blue BL

XT 36.1

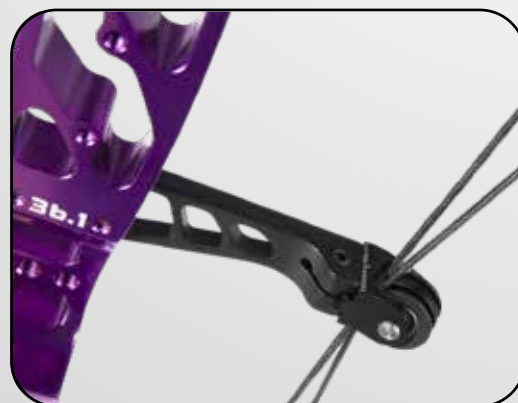

CODE 55L094

The Booster 36.1 compound bow is a multi-purpose bow, suitable for the use in both field and target archery. The machined riser is slightly and available in 7 colors. The integrated grip is comfortable and allows for excellent stability and control of the bow when aiming. The bow uses Dual Syncro Cams with which you can achieve a smooth draw, solid wall and excellent arrow speed. The cams are available in two different sizes that enable, through module adjustment and without the aid of a bow press, draw lengths from 25.5" to 28.5" (Cam 2) and from 27.5" to 31.5" (Cam 1). The bow's poundage can be decreased by a maximum of 15#. The bow comes complete with string stop to minimise vibration.

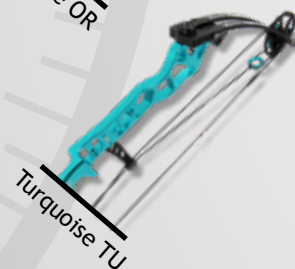

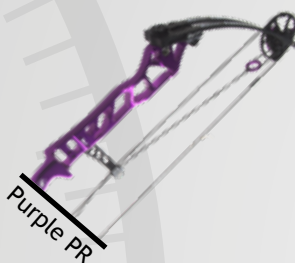

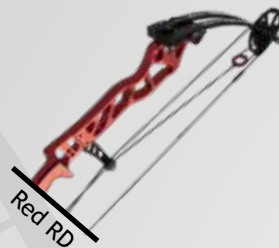

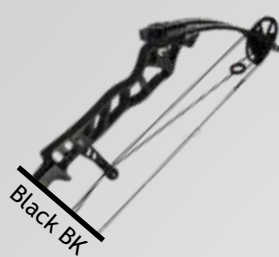

Available colors: Black BK, Blue BL, Green GR, Orange OR, Purple PR, Red RD and Turquoise TU.

RTS BLACK
CODE 55M489

The bow is also available as an RTS kit complete with accessories: 5-pin sight, hunting stabilizer, index release, biscuit rest, peep and sling.

RTH CAMO
CODE 55M490

Differs from the RTS Black by an applicable quiver for 5 arrows.

XT 31.1

CODE 55L197

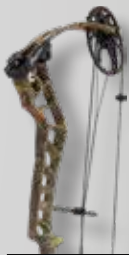

The Booster XT 31.1 compound bow is the ideal choice for archers of all ages, strengths and sizes. It is also suitable for those who are still growing and acquiring greater skill in shooting with the compound bow. The adjustment possibility is in fact very wide and offers a range of draw lengths from 19 to 30 inches and draw weight from 15 to 60 pounds, without the need to use a press.

The Booster XT 31.1 has additional features that make it really interesting and able to make a difference compared to other products in this price range: the use of aluminium modules for adjusting the length, metal pockets, cables and strings in Fast Flight with reinforcement serving at the points where the string hits the damper and the cables at the point where they slide into the cable separator. The bow comes complete with a string stop to minimize vibrations.

Available colors: Black BK, Blue BL, Camo CM, Purple PR, Red RD, Smoke Grey SM and Turquoise TU.
